

Oregon Association of Municipal Recordors

MENTORING AND LEADERSHIP DEVELOPMENT COMMITTEE

September 2009 to September 2010

..... to encourage professional growth and development of new City Recordors through the OAMR Mentoring Program and to provide guidance and support to potential candidates for the OAMR Board of Directors through the OAMR Leadership Development Program...

"As an individual who benefited from the program at my first conference in 1993, I cannot tell you how relieved I was to be able to "tag" along with my Mentor during the conference. It provided me with the basis of what the Association can offer both professionally and personally. If she did not know the answer, she knew someone who would. It is this kind of networking opportunities which provide the basis for our organization. I hope each of the new members will reap the positive rewards this program has to offer." *Denise Carey, MMC.*
